

THE PALACE OF THE LOST CITY

This luxury **five-star** hotel in Sun City has integrated the natural beauty of its surroundings into its design, taking architectural and interior themes from the legend of a lost African tribe to capture the essence of The Palace. Think richly-woven colours, faux elephant tusks, sculptured bronze and crystal, and jungle cascades. The magnificence of the wild landscape is depicted through lions, kudus, birds and beasts of all kinds; these are immortalised in statues, stone carvings, mosaic illustrations, vaulted ceilings, dazzling flame-topped towers and in artist Danie de Jager's bronze wildlife sculptures. With fresco ceilings above and ancient tiles below, you are left to stand in awe at the sheer scale and grandeur of the masterpiece that is The Palace of the Lost City.
